?

1. PEAS

Agent Type	Performance measure	Environment	Actuators	Sensors

2. Specifying the environment (ODESA D)

1- Observability (Fully Observable vs. Partial Observable)

?

2- Deterministic vs. stochastic.

?

3- Episodic vs. Sequential.

?

4- Static vs. dynamic.

?

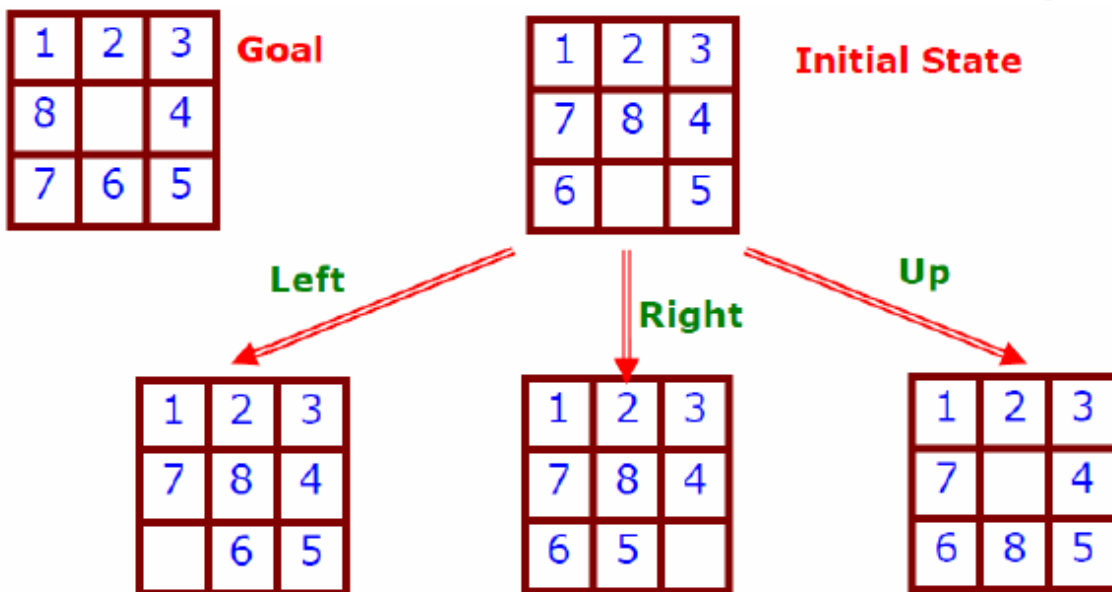

5- Agents (Single agent vs. multi-agent)

?

3- The formulation:

- States: ?
- Initial state: ?
- Successor function: ?
- Goal test: ?
- Path cost: number of steps in the path (each step costs 1)

4. Tree

5- methods
